Introduction to Microwave Imaging
by Nikolova

1. Eq. (1.332) should read

$$2a \sup |k_s(\mathbf{r}) - k_b| < \pi.$$

2. In Eqs. (1.119), (1.120), (1.121), the argument of u_+ must be $(\mathbf{r}', T_{\max} - t')$, not $(\mathbf{r}, T_{\max} - t')$.
