EE4CL4 – Final Exam (cont.)

Material covered in the exam:

- All lectures, tutorials, labs, and homework assignments
- The majority of the questions will be based on Lectures #13 – #33, Homework Assignments #3 – #5 and Labs #3 – #5
- Questions will consist of both mathematical problems and questions requiring written answers, e.g., interpretation, explanation.

EE4CL4 – Final Exam (cont.)

Definitions, equations and tables provided:

I have posted a PDF document on the course web site with all the definitions, equations and tables that will be provided with the exam. If a definition or equation has been used in the homework assignments or labs and it is not given on this sheet, **then assume that you need to memorize it.**
